Albany, New York

ABOUT

St. Peter's Health Partners (SPHP), rooted in a legacy spanning over 150 years, is one of the largest and most comprehensive not-for-profit healthcare networks in New York's Capital Region. Our origins trace back to the dedication of the Religious Sisters of Mercy, Daughters of Charity, and local municipalities who founded hospitals, nursing schools, and health ministries to enhance the health and well-being of their communities. United in 2011, these facilities now operate together as St. Peter's Health Partners, continuing a tradition of compassionate, community-focused healthcare.

At SPHP, our mission is to serve in the spirit of the gospel as a compassionate and transformative healing presence within our communities. Partnering with Trinity Health, we are committed to delivering a full range of services, along with exceptional support and care coordination, to help individuals achieve their health goals.
